

INTERVENTIONAL PAIN MANAGEMENT

At Family Spine and Pain Care Institute, we want our patients to feel right at home.

From our warm and friendly staff to our most advanced up-to-date medical treatments, we strive to give our patients the highest quality of comprehensive care available. We understand that pain is debilitating, and that it can lead to a vicious cycle of depression, inactivity, fear, and anxiety, which can severely affect the lives of our patients and their loved ones.

No one deserves to live a life of pain. Our goal is to help our patients break the cycle of pain, so you can take back control of your life, and start doing what you love most. Trust, compassion, communication, and care formulate the core foundations of our beliefs. Our team wants each one of our patients to feel like they are part of our family.

Family Spine and Pain Institute Physician's are Double Board Certified in Anesthesiology and Interventional Pain Management by the American Board of Anesthesiology.

Performing many spine and joint procedures such as epidurals, facet blocks, spinal cord stimulators, kyphoplasty for vertebral fractures, nerve blocks, migraine headaches, joint injections, and much more.

"The one thing missing in the medical field today is being able to take the time to listen and understand our patients. It is through this process where we can formulate a comprehensive plan to produce the best possible outcomes." – Dr. Omar H. Henriquez

Our Founder, Dr. Henriquez, is a true Florida native having lived most of his life in Florida. When he is at home he enjoys spending time with his wife and four children, exploring their city, and playing outdoors. They are very excited to have chosen Sarasota County as their home and continue their journey as a family and **helping out in the community through charities and fundraisers.**
